

FLAWLESS FINISH TO 2011

WHILE SHEER MAY BE THE ORDER OF THE DAY, GREAT COVERAGE IS STILL THE GO FOR HIGH-GLAM NYE EVENTS, SO IF YOUR CLIENTS' RESOLUTIONS ARE TO GREET THE NEW YEAR WITH CALM, HEALTHY SKIN THAT LOOKS AMAZING, PUT THEM ONTO THESE GORGEOUS MAKEUP CHOICES.

For touch ups and skin protection throughout the evening and into the small hours, then pack your favourite party girls off with the purse-friendly **DermaMinerals On-the-Go Finishing Powder SPF 30**. With a retractable brush built in, application of mattifying minerals to combat shine is quicker than the Times Square ball drop. DERMAQUEST.COM.AU, 1300 799 709

* Transitioning from afternoon to night calls for a change of look, but revelers with a full day on the go will appreciate the versatility of **Enhance by Natural Compatibles Wet & Dry Foundation**.

Applying dry gives a natural look for day, then a dampened sponge will gear up coverage and sheen for the main event. For a cover model finish, apply over a liquid foundation to set and forget. NATURALCOMPATIBLES.COM.AU, 03 9764 0966

Need deep coverage that breathes and lasts for hours to conceal problem skin? Developed as a post-cosmetic surgery cover-up, the triple silica gel technology of **LycoGel Breathable Camouflage** and **Breathable Concealer** is safe for sensitive and ageing skin types. LYCOGEL.COM.AU, 1300 668 755

Start the night off right with face and body prep. **Jane Iredale's Tantiasia** mineral-based moisturiser and self-tanner stimulates skin's own melanin formation to produce an even, streak-free tan. Top off the alluring glow with a **Naturally Confident** colour skincare makeover that, being pure mineral, is good enough to sleep in—or dance the night away in! MARGIFOX.COM.AU, 1300 SKINCARE
